

## Wound Healing TB 500 Peptide Synthetic tb 500 muscle growth

### Our Product Introduction

for more products please visit us on [peptide-powder.com](http://peptide-powder.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: HPLC, MS, COA
- Model Number: HBY-TB 500
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5mg/10mg/vial, 10vials/box
- Delivery Time: Receive advance payment, within 3-5 days
- Payment Terms: Paypal, L/C, Moneygram, Western Union, T/T
- Supply Ability: 20,000 boxes/per month

#### Product Specification

- Molecular Weight: 4963.4406
- Chemical Formula: C<sub>38</sub>H<sub>67</sub>N<sub>9</sub>O<sub>15</sub>
- Source: Synthetic
- Molar Mass: 890
- Expiry Date: 2022-12-31
- Shipping Method: DHL/UPS/FedEx/TNT/EMS
- Shelf Life: 2 Years
- Storage: Lyophilized Peptides Although Stable At Room Temperature For 3 Months, Should Be Stored Desiccated Below -18°C. Upon Reconstitution Of The Peptide It Should Be Stored At 4°C Between 2-21 Days And For Future Use Below -18°C.
- Highlight: Wound Healing TB 500 Peptide,

## Product Description

### Product Description:

What is TB-500?

TB-500 is a synthetic analogue of thymosin-beta-4 (TB4), which is a naturally occurring protein produced within the human body. It is composed of 43 amino acids, and it is fundamental in the wound healing process that helps to minimize inflammation, cellular damage and infection.

TB-500 works similarly to TB4 by maintaining activity of TB4 in various therapeutic domains. Several clinical studies have found its benefits, such as promotion of healing across various tissue types, anti-aging effects, and even cardiovascular advantages.

As of now, TB4 is being intensely investigated to help treat a wide variety of cardiometabolic and inflammatory diseases, including myocardial infarction, ulcerative colitis, keratitis and renal fibrosis.

### Features:

Product Name: TB 500 Peptide

Shelf life: 2 Years

Storage: Lyophilized Peptides Although Stable At Room Temperature For 3 Months, Should Be Stored Desiccated Below -18°C. Upon Reconstitution Of The Peptide It Should Be Stored At 4°C Between 2-21 Days And For Future Use Below -18°C.

Source: Synthetic

Molecular Formula: C212H350N56O78S

Shipping Method: DHL/UPS/FedEx/TNT/EMS

Keywords: tb 500 peptide buy, tb 500 for sale, thymosin beta 4 sale

### Applications:

What does TB-500 do? TB-500 is functionally identical to TB4, as researchers and clinicians believe. Clinical trials and research has been done on TB4 with respect to its therapeutic effects. It is known to have anti-inflammatory, anti-fibrotic, and protective effects throughout the body.

TB4 increases the levels of vascular endothelial growth factor (VEGF) and actin, which contribute to cell migration and angiogenesis. Clinicians are particularly interested in its ability to repair cardiac and neural tissue after ischemic events. TB4 also modulates cytokine levels and significantly reduces oxidative stress and attenuates fibrosis, which promote an improved healing process.

Overall, TB4 and TB-500 have potential to treat liver, kidney, and heart injury and inflammatory bowel disease. Through its anti-inflammatory properties and its ability to contribute to the overall integrity of cardiovascular and connective tissue beyond injury repair, TB4 and TB-500 may prove useful in many different areas of healing and treatment for certain chronic diseases.

### Customization:

Customized Service: Hongbaiyi TB 500 Peptide

Brand Name: Hongbaiyi

Model Number: HBY-TB 500

Place of Origin: China

Certification: HPLC, MS, COA

Minimum Order Quantity: 5 boxes

Price: Negotiable

Packaging Details: 5mg/10mg/vial, 10vials/box

Delivery Time: Receive advance payment, within 3-5 days

Payment Terms: Paypal, L/C, Moneygram, Western Union, T/T

Supply Ability: 20,000 boxes/per month

Packing: 1mg/vial

Purity: 99%

Appearance: White Lyophilized Powder

Molecular Formula: C212H350N56O78S

Expiry Date: 2022-12-31

Hongbaiyi TB 500 Peptide is a high-quality thymosin beta 500 with numerous benefits. Made in China with strict quality control, it is certified by HPLC, MS, and COA. It is offered in 1mg/vial packing, with a purity of 99%. The molecular formula is C212H350N56O78S. The minimum order quantity is 5 boxes, with a negotiable price. Delivery time is within 3-5 days upon receiving advance payment. Payment can be made via Paypal, L/C, Moneygram, Western Union, T/T. Our supply ability is 20,000 boxes/per month. The expiry date is 2022-12-31.

To buy TB 500 peptide, please contact us at Hongbaiyi. We offer high-quality product and customized service.

### Packing and Shipping:

TB 500 Peptide will be packaged and shipped in the following manner:

The product will be securely sealed in a plastic bag.

The bagged product will then be placed in a cardboard box.  
The box will then be sealed with tape.  
The box and its contents will then be placed in a plastic shipping bag.  
The shipping bag will be labeled clearly with the customer's address and shipping information.  
The package will then be ready for shipment.

## FAQ:

---

Q1: What is TB-500 Peptide?

A1: TB-500 Peptide, produced by Hongbaiyi, is a synthetic peptide version of Thymosin Beta-4. It is designed to promote joint and muscle recovery.

Q2: What is the model number of TB-500 Peptide?

A2: The model number of TB-500 Peptide is HBY-TB 500.

Q3: Where is TB-500 Peptide made?

A3: TB-500 Peptide is made in China.

Q4: What certifications does TB-500 Peptide have?

A4: TB-500 Peptide is certified by HPLC, MS and COA.

Q5: How much does TB-500 Peptide cost?

A5: The price of TB-500 Peptide is negotiable. The minimum order quantity is 5 boxes, and each box contains 10 vials of 5mg/10mg.
